

Who we are

Cairngorm Capital is a specialist private equity firm providing investment capital, strategic insight and sector expertise to leading companies

We are thematic investors with a highly collaborative approach, who partner with ambitious management teams to build enduring, industry-leading companies

We deploy our extensive expertise in buy-and-build strategy, revenue expansion, margin accretion and operational improvement to help scale each of our investments

Cairngorm Capital at a glance

65+ Completed control investments
10 Portfolio companies
7,250 Employees across the portfolio

£400m assets under management
£1.2bn of combined revenues

Where we partner

We invest in profitable companies that have the potential for transformational growth. We have particular expertise in investing in family and founder-owned businesses

Most of our investments are UK headquartered, but we also invest in North America

We usually take majority positions where we can partner with management to drive value creation

Our wider purpose

Environment, Social and Governance (ESG)
ESG is fundamental to our investment process, from finding and executing investments, through stewardship and ultimately at the exit phase

Established in 2021 by our partners as a way of supporting the causes about which we are most passionate and to make a positive contribution to the communities in which we operate
